Cable Kit 3138/02
Interface 3130 or 3009/17

Mimer SoftRadio - Motorola MotoTrbo radios without virtual control head, 26-pin back port

Remote functionality
This cable kit will together with the Mimer Network Interface give remote control of the radios audio and PTT functions.

Virtual Control Head is not possible.

Radio programming
GPIO Pin #17 should be set to Ext Mic PTT, active Low.
Ignition Sense shall be activated (so that the radio restarts after a power failure)

When used in SoftLine cross patch installations
All alert tones in the radio shall be turned off. They will otherwise interfere and cause the other radio to transmit each time they sound.
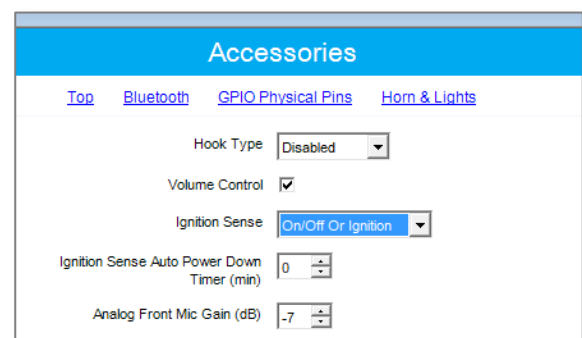

Power Supply
The red and black wires shall be connected to 12VDC, red is positive.
The network interface consumes max 0,3A.
