

Connecting radios all over the world

For use with Mimer SoftRadio we recommend PC's with a touch screen

Tipro BeFree10 or BeFree20

This is a well adapted PC for a dispatcher. Everything can be operated from the large touch screen.

And you also have:

- Goose neck microphone
- Built in speakers
- Built in mechanical PTT key
- Mechanical volume control
- Key press light control

The specification includes:

- Intel Quad-Core J1900 CPU @ 2GHz
- Solid state disk 128GB
- RAM 4GB
- 2 x LAN
- USB
- COM-port

BeFree10 - 10,4"

BeFree20 - 15"

Two more sizes are also available; 7" and 15,6".

Lenovo PC with Mimo 10" touch screen

This is a nice combination of a very small PC with a separate touch screen. In the picture you also see our own desk top microphone.
