

Mimer SoftRadio

Network Controlled Radio, Part 2

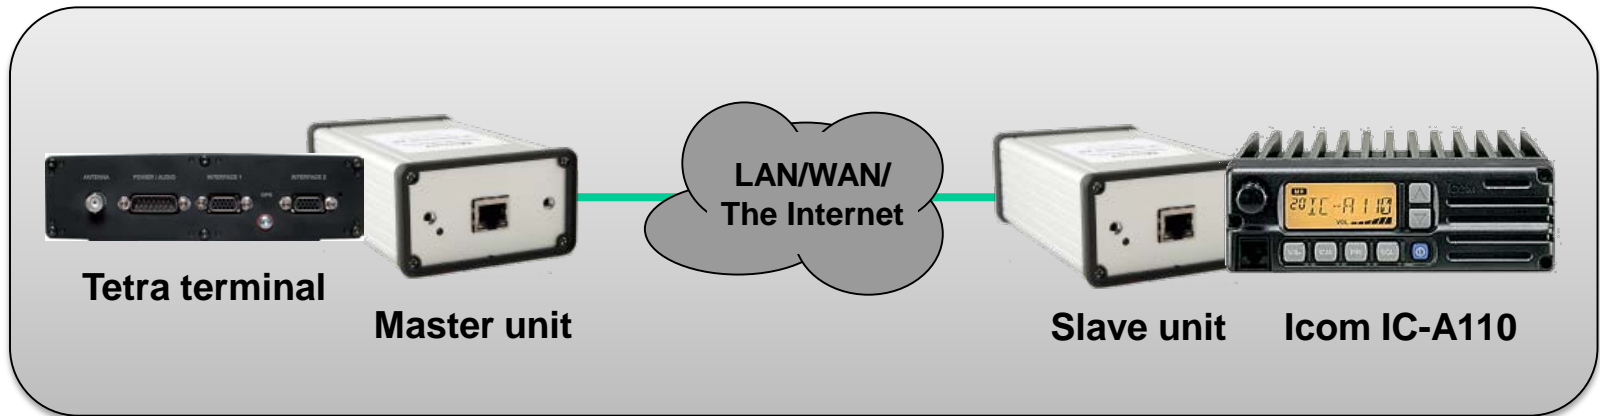

LS Elektronik AB

Mimer SoftLine

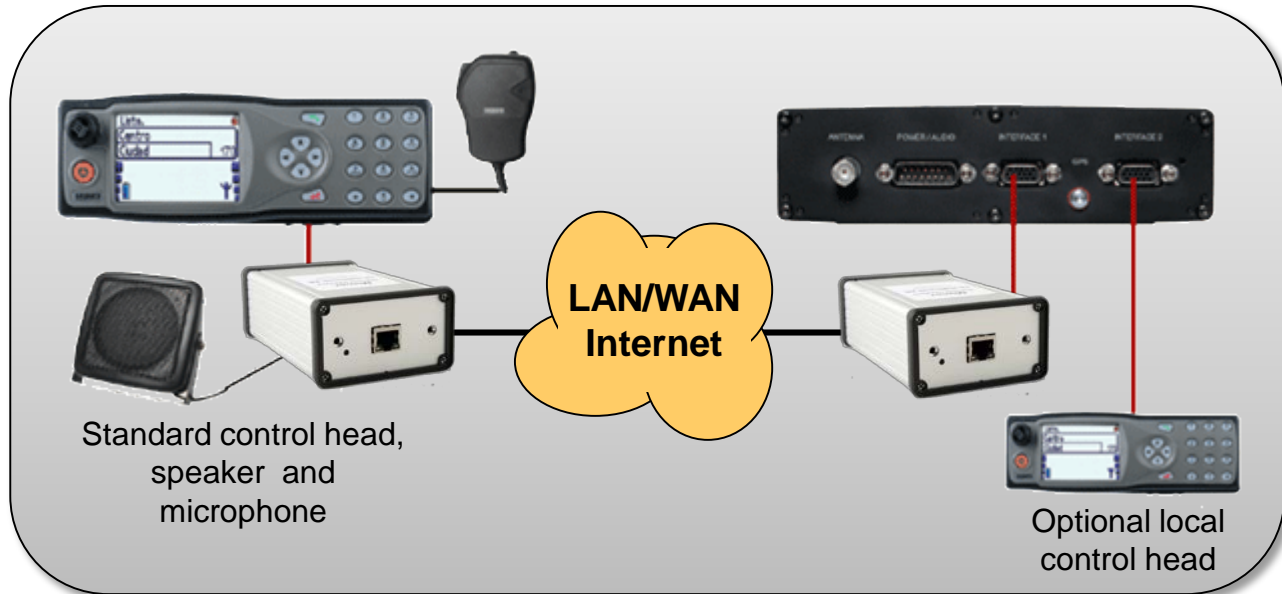

Mimer SoftLine gives you a virtual 4-wire line, I/O:s, a virtual RS232 and more.

Mimer SoftLine

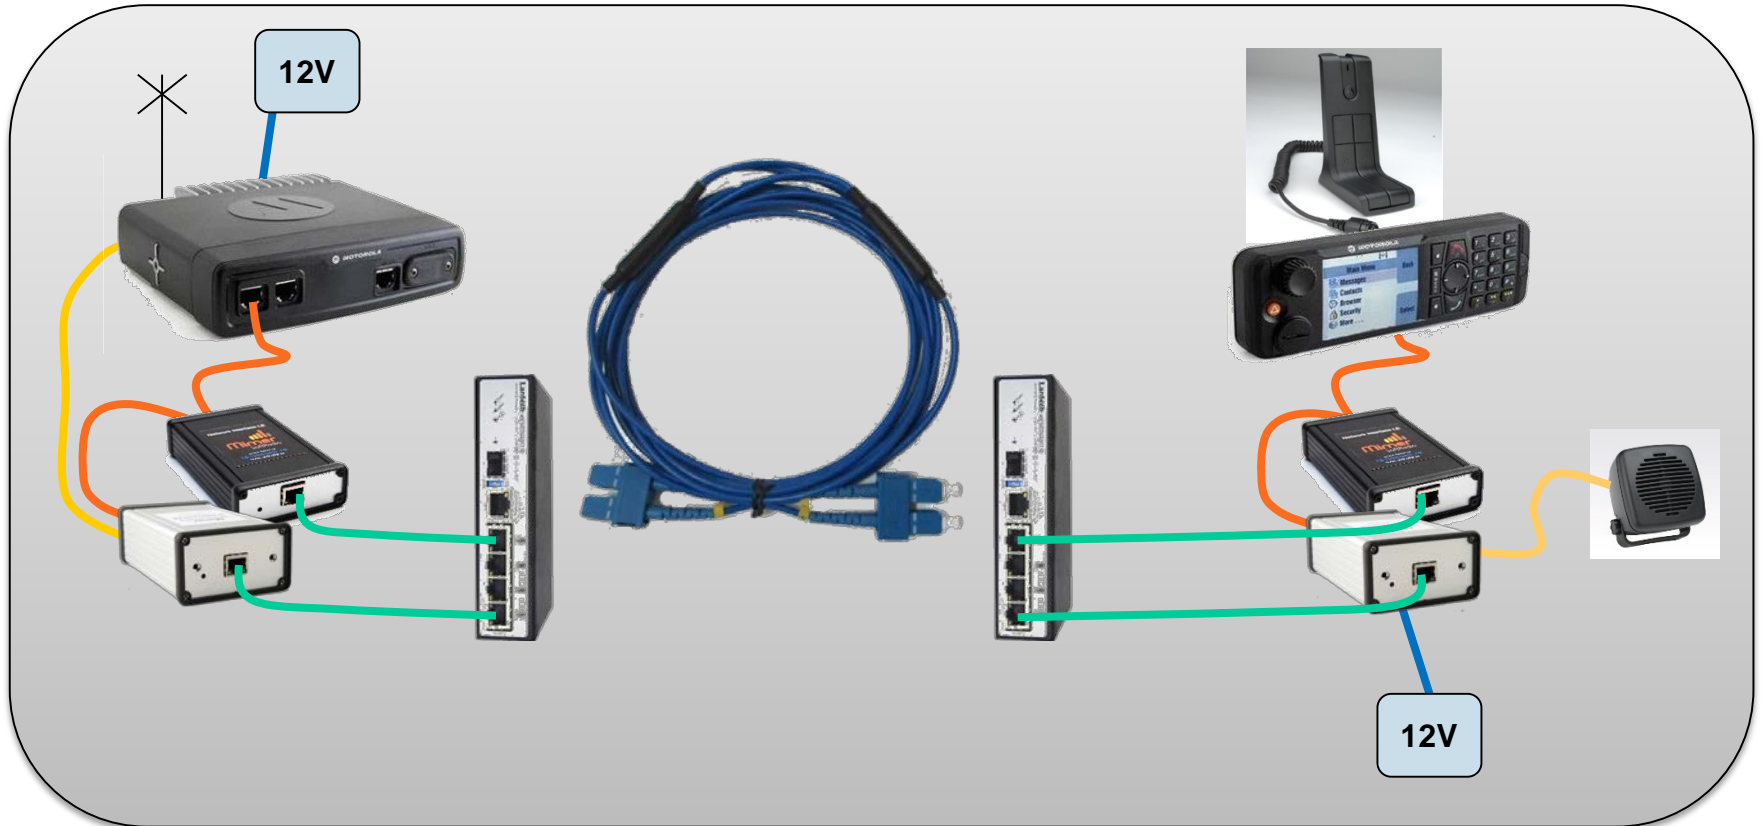

**Example of cross patch between Tetra and Airband radio,
local or remote.**

SoftLine Sepura

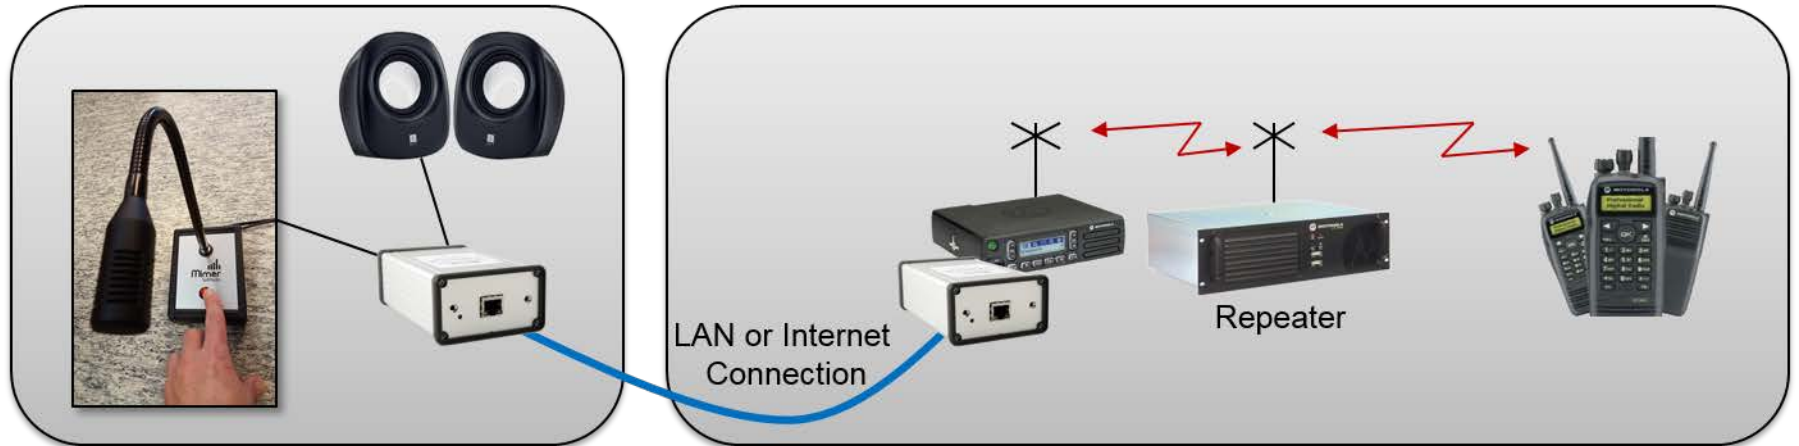

Example of remote control with the standard radio control head.

SoftLine MTM5500

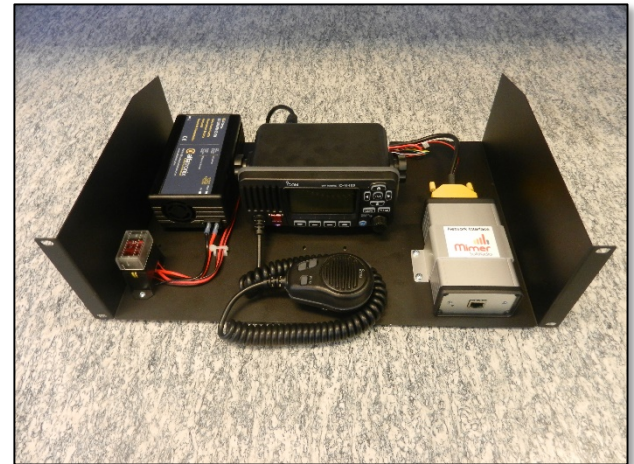

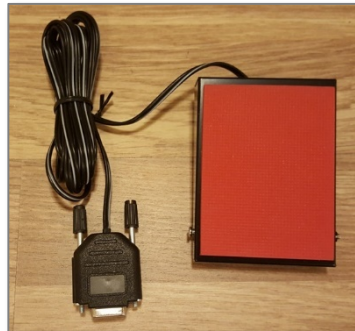

Example of remote control with the standard radio control head and fibre connection.

Mimer SoftLine

A SoftLine can be connected so that you have a radio in one end and only speaker and microphone in the other.
